This document is not an ASTM standard and is intended only to provide the user of an ASTM standard an indication of what changes have been made to the previous version. Because it may not be technically possible to adequately depict all changes accurately, ASTM recommends that users consult prior editions as appropriate. In all cases only the current version of the standard as published by ASTM is to be considered the official document.

METRIC Designation: F 1019M – 95a 1019M – 00

An American National Standard

Standard Specification for Steel Deck Gear Stowage Box [Metric]¹

This standard is issued under the fixed designation F 1019M; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses indicates the year of last reapproval. A superscript epsilon (ϵ) indicates an editorial change since the last revision or reapproval.

1. Scope

- 1.1 This specification covers the design, material, and manufacture of steel deck gear stowage boxes.
- 1.2 This specification shall not be used for life preserver or pyrotechnic stowage.
- 1.3 The values stated in SI units are to be regarded as the standard. The values given in parentheses are for information only.

SSPC Specification 6⁵
AWS-8a D-1.1 Structural Welding Code
2.3 Military Specifications:
MIL-S-901, Shock Test, H.I. (High Impact); Shipboard Machinery, Equipment and Systems; Requirement for⁶⁷

3. Classification

3.1 Deck Gear Stowage Boxes, shall be the following types:

3.1.1 Type I-Conforming to all dimensions in Fig. 1, Fig. 2, Fig. 3, Fig. 4, Fig. 5, Fig. 6, Fig. 7, Fig. 8, and Fig. 9.

3.1.2 *Type II*—Conforming only to Fig. 1 configuration and meeting the requirements of Sections-4 through 8, 4-7, dimensions and material specification made to fit unique requirements of customer.

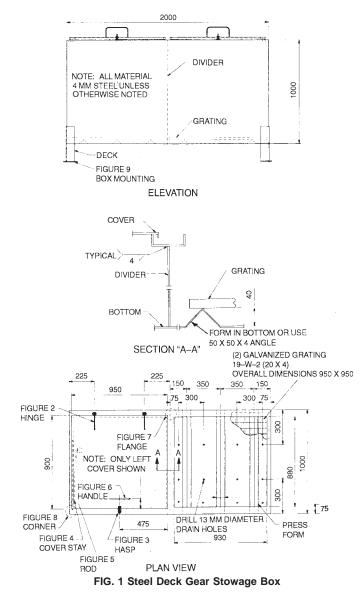

4. Ordering Information

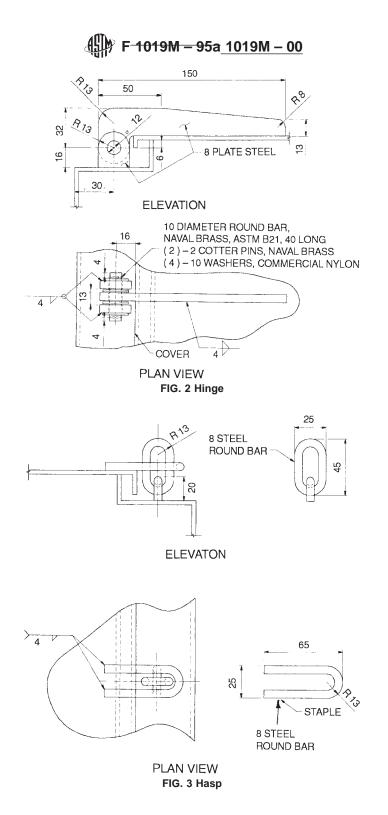

4.1 Order using this ASTM designation-and, year of issue, and type.

5. Materials and Manufacture

5.1 Materials:

⁵ Available from American Bureau of Shipping, 45 Eisenhower Dr., Paramus, NJ 07652. Steel Structures Painting Council, 4400 5th Ave., Pittsburgh, PA 15213. ⁷ Available from Steel Structures Painting Council, 4400 5th Ave., Pittsburgh, PA 15213. American Welding Society, 550 N.W. Le Jeune Rd., Miami, FL 33126.

- 5.1.1 The steel for the deck box shall be in accordance with Specification A 36/A 36M.
- 5.1.2 Nuts, bolts, and washers shall be corrosion-resistant materials.
- 5.1.3 Materials used in construction of this box and its packaging shall be free of asbestos and cadmium.

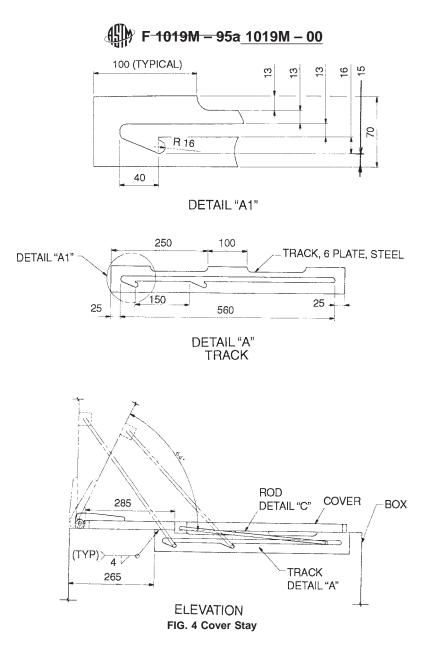

5.2 Manufacture:

5.2.1 Stowage boxes shall be constructed in accordance with figures appearing in this standard.

5.2.2 Welding shall be in accordance with ABS Rules for Building and Classing Steel Vessels or AWS D1.1 Structural Welding Code unless otherwise specified.

6. Dimensions and Tolerances

6.1 Dimensions are as indicated.

6.2 *Tolerance*—1.5 mm ($\pm \frac{1}{16}$ in.).

7. Workmanship, Finish, and Appearance

7.1 The entire assembly shall be free of weld spatter, slag, splinters, sharp edges, projections, and other defects that may be hazardous to personnel.

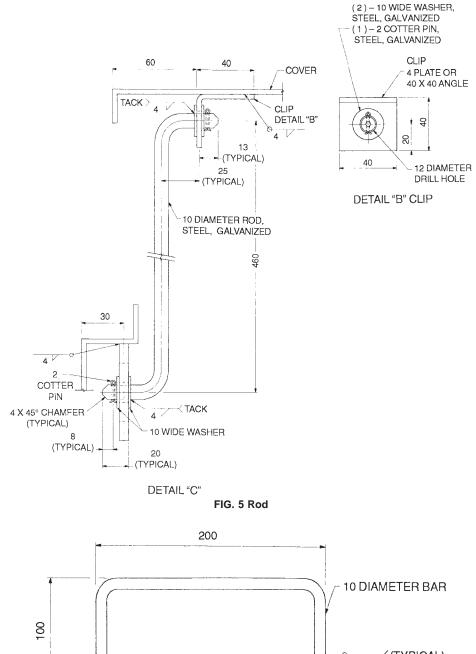

7.2 The box shall be cleaned after assembly to a commercial finish in accordance with SSPC-SP6.

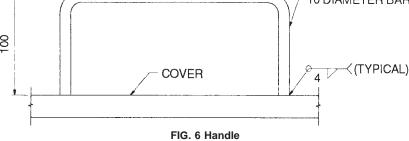

7.3 All surfaces except gratings and covers shall be coated with one coat of commercial quality anti-corrosive, lead_free, chromate_free primer to a minimum dry film thickness of 50 µm.

7.4 Gratings and covers shall be galvanized in accordance with Specification A 123/A 123M.

8. Keywords

8.1 box; deck gear stowage boxes; locker; marine; marine stowage boxes; ship; stowage boxes

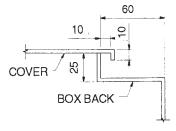

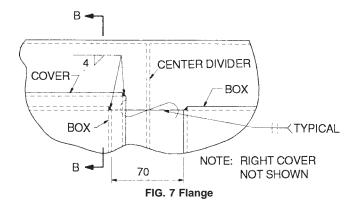

SUPPLEMENTARY REQUIREMENTS

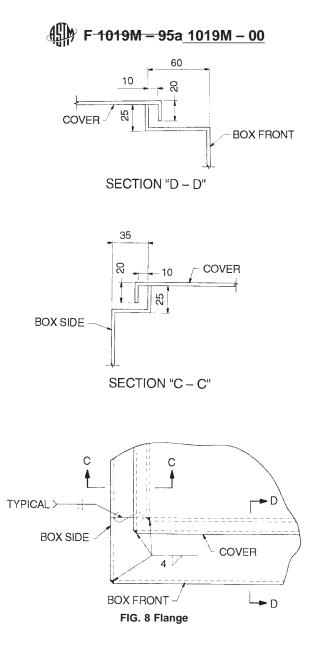

S1. Shock Testing

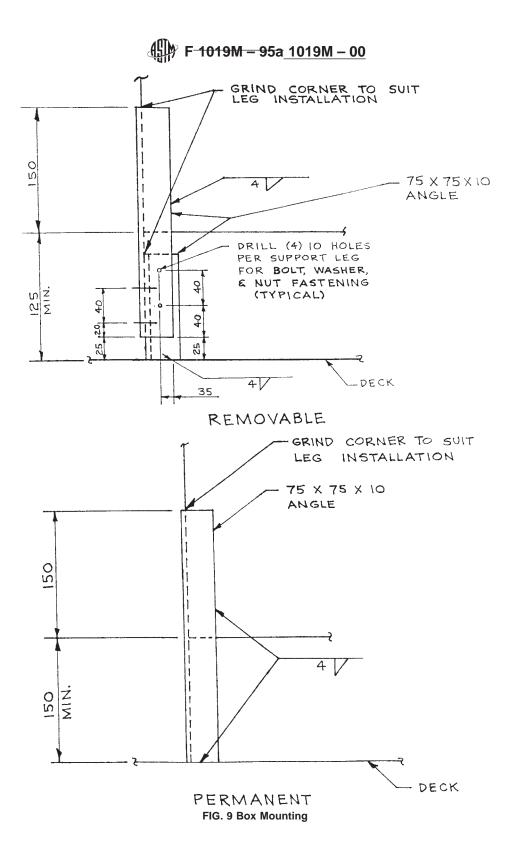

∰ F1019M – 95a<u>1019M</u> – 00

SECTION "B-B"

∰ F_1019M – 95a<u>_</u>1019M – 00

S1.1 Type II units required for use in shock qualified areas shall be designed constructed and installed to accommodate the grade of shock as specified in MIL-S-901.

S1.2 The purchaser shall specify the required door position desired for shock testing.

ASTM International takes no position respecting the validity of any patent rights asserted in connection with any item mentioned in this standard. Users of this standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, are entirely their own responsibility.

This standard is subject to revision at any time by the responsible technical committee and must be reviewed every five years and if not revised, either reapproved or withdrawn. Your comments are invited either for revision of this standard or for additional standards and should be addressed to ASTM International Headquarters. Your comments will receive careful consideration at a meeting of the responsible technical committee, which you may attend. If you feel that your comments have not received a fair hearing you should make your views known to the ASTM Committee on Standards, at the address shown below.
